WALEED AHMED

Frontend Developer | Reactjs | Web Developer

DOB: 04/08/2001 | **E-mail:** waliwickey@gmail.com | **Phone:** 0318-5200427
Address: House # 31, Opposite Thana Race Course, Tench Bhatta, Rawalpindi.

PROFESSIONAL EXPERIENCE

- **React js Web Developer** (Feb 2023- Present)
  Freelancing
  - Developed a dynamic **e-commerce platform** using React.js, enabling seamless online shopping experiences for users. Integrated features such as product browsing, cart management, and secure checkout functionalities.
  - Created a responsive **portfolio website** for a freelance photographer, showcasing their work and services effectively. Implemented custom animations and interactive elements to enhance user engagement.
  - Collaborated with a startup to develop a **social networking platform** using React.js, facilitating connections and interactions between users. Integrated real-time messaging functionalities and user authentication features.
  - Designed and developed a **task management application** using React.js and Redux, allowing users to organize, prioritize, and track tasks efficiently. Implemented drag-and-drop functionality and data visualization features for enhanced usability.

- **Frontend Web Developer Intern** (Aug 2023- Jan 2024)
  VizzTech
  - Enhanced proficiency in frontend development technologies, including React.js, Redux, and Material UI.
  - Developed problem-solving skills through hands-on experience in identifying and resolving software bugs and performance issues.
  - Gained practical experience in version control using Git and collaborative development workflows using platforms like GitHub.
  - Improved communication and teamwork skills through regular interaction with team members, stakeholders, and clients.

PROJECTS UNDERTAKEN

- **Weather Dashboard (React js)**
  - Created a weather dashboard application using React.js and an API for weather data. Users can search for weather forecasts by city and view detailed information.
  - Enhanced understanding of API integration in React.js, including making asynchronous requests using fetch. Learned how to manage and display fetched data efficiently.
- **Quiz Application (React js with Firebase)**
  - Built a quiz application using React.js with Firebase for real-time database storage. Users can take quizzes on various topics, view their scores, and track progress.
  - Explored Firebase integration in React.js applications for authentication, database storage, and real-time updates. Learned how to structure and organize Firebase data for efficient retrieval.
- **Recipe Finder (React js with API Integration)**
  - Developed a recipe finder application using React.js with integration of a recipe API. Users can search for recipes by ingredients, view recipe details, and save favorites.
  - Deepened understanding of working with external APIs in React.js applications. Learned about API authentication, pagination, and error handling to provide a seamless user experience.
- **Life Aid (React Native Final Year Project)**
  - Designed and developed a mobile application with Firebase as backend for Jamila Sultana Foundation as Final Year Project.
  - Integrated Push Notifications, User Authentication and GPS functionality for location based services.

EDUCATIONAL QUALIFICATIONS

Course (Stream)/Examination	Institution/University	Year of Passing	Performance
BSIT	University of Gujrat	2023	3.21
ICS	FG Sir Syed College	2019	79.4%

SKILLS

- React.js.
- React Native.
- JavaScript, HTML, CSS
- Figma UI Design.
- Nodejs.
- Firebase.
- Strong problem-solving.
- Communication skills.
- Ability to work effectively in a team environment.
